

# CONTRACT REPOSITORY

## FCR Agreement Application Programming Interface (API) Add-On

Framesoft's Contract Repository (FCR) is a global Contract Management solution. FCR covers the entire contract lifecycle process from the initial agreement request, to its creation, negotiation & execution. FCR's contract lifecycle management also supports amendment and due diligence handling, obligations & commitments, milestones as well as compliance & retention management for any kind of agreement.

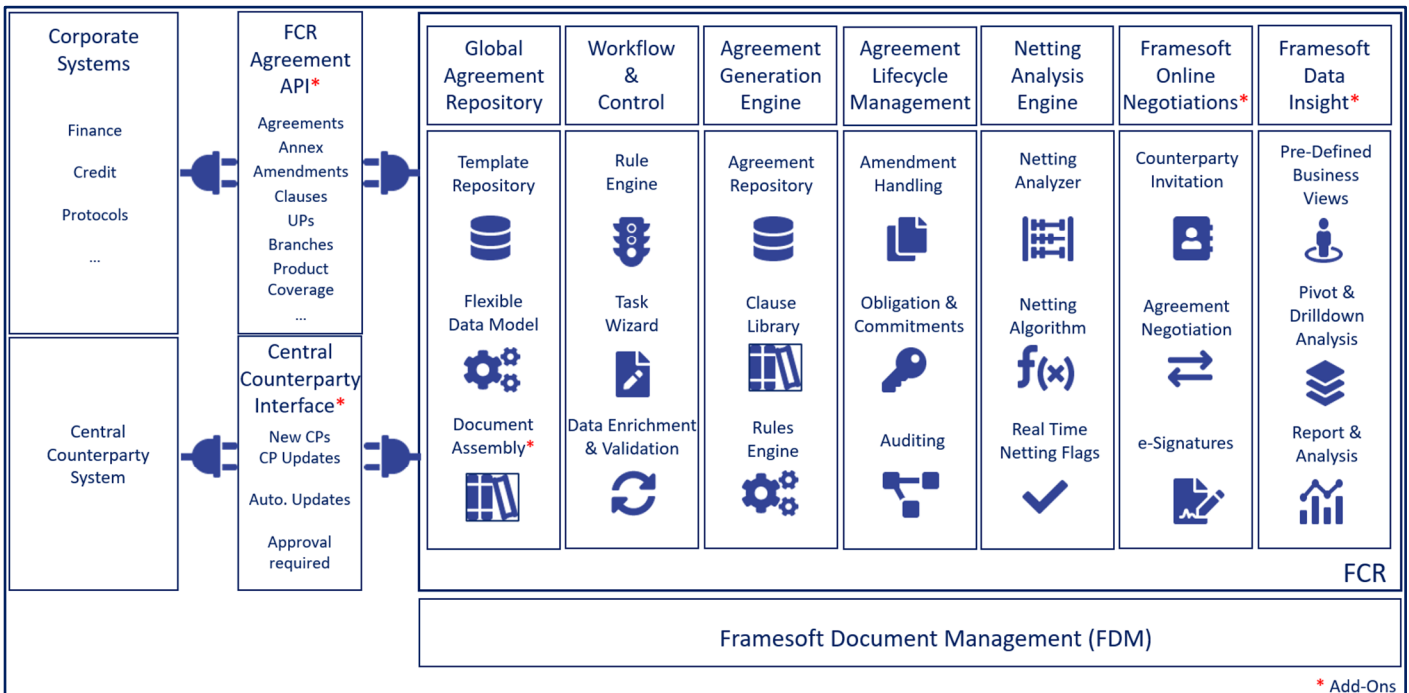

The Framesoft Contract Repository (FCR) Agreement Application Programming Interface (API) further extends the already provided FCR Add-On range. The FCR Agreement API allows to trigger:

- create,
- read,

The FCR Agreement API is provided as REST API. All requests to the FCR API must be sent via the FCR authentication path to allow validation of the user (real or technical) requesting access to the FCR API. At the first request, the FCR API checks the credentials of the requestor against the FCR authentication in place and creates a set of cookies which are added to the header of the HTTPS response and sent back to the client.

Furthermore, a "FCR Agreement API Health Status" component is provided in FCR as part of the API offering access to the following information in FCR:

- List of all requests received
- View a request status
- View reason(s) for non-accepting a request by FCR

- update, and
- delete

actions from external / corporate systems to the following FCR elements:

- Agreements
- Agreement Clauses (1. Level Data Points)
- Annexes
- Amendments
- Bank & Counterparty Branches
- Underlying Principals
- Counterparty Properties (Form of Organization (FoO))  
Netting Flags
- Product Coverage
- etc.

Beside the FCR Agreement API the following FCR Add-Ons extends its capabilities:

- **Framesoft Document Assembly (FDA)**  
Realtime creation & configuration of doc. templates
- **Framesoft Online Negotiation (FON for MA)**  
Agreement Generation & Negotiation
- **Framesoft Data Insight (FDI)**  
Agreement & Data (Risk) Analysis & Reporting
- **Framesoft Central Counterparty Interface (CCI)**  
Management of new counterparties & counterparty updates received via the client's central counterparty management system

Get in contact with us for a web based demonstration of FCR and its Add-Ons at [contact@framesoft.com](mailto:contact@framesoft.com) or visit our website at [www.framesoft.com](http://www.framesoft.com)

# COMPANY PROFILE

Framesoft AG Software Applications

Framesoft offers the following fully integrated solution portfolio

- **Framesoft Structured Products (FSP)**
- **Framesoft PRIIPS KID Generator (FPG)**
- **Framesoft OTC Platform (FOP)**
- **Framesoft Contract Repository (FCR)**
- **Framesoft Confirmation Generator (FCG)**
- **Framesoft Matter Management (FLM)**
- **Framesoft Document Management (FDM)**
- **Framesoft Repo & Securities Lending (FRS)**
- **Framesoft Fee Management (FFM)**
- **Framesoft Document Generator (FDG)**
- **Framesoft Resource Management (FRM)**
- **Framesoft Secure Online Data Room (FDM Platform)**
- **Framesoft Online Negotiation (FON for MA)**
- **Framesoft Protocol Platform (FPP)**
- **Framesoft Data Insight (FDI)**
- **Framesoft Document Intelligence (FAI)**

Framesoft's product & services portfolio is strongly focusing on the financial services industry and covers the complete life cycle of a software solution, ranging from supporting the early conceptual application design stages, to the delivery and integration of our applications into the client's infrastructure.

Framesoft is also offering application support including

- 1<sup>st</sup> / 2<sup>nd</sup> / 3<sup>rd</sup> level production support
- business and
- user support.

Additionally, Framesoft offers to run its applications as ASP service based on its advanced cloud infrastructure in Switzerland.

Framesoft was founded in 1996 with the goal to create technology solutions for innovative, fast-growing areas within the financial services industry. Framesoft solutions are built on a foundation of core modules (Frameworks) enabling rapid application development mainly based on configuration to meet the ever-evolving needs in these markets.

Framesoft's mission is to maximize the benefits of external technology provision for our clients, by applying the Framesoft Framework strategy.

Framesoft's unique selling proposition is the support of complete value chains including areas typically conducted by means of unstructured tools such as paper, e-Mail, facsimile or telephone.

Customers using Framesoft solutions

- achieve a high degree of **Straight through Processing (STP)**,
- avoid typical **operational risks** associated with manual interventions,
- gain **control** over complex business processes,
- increase Business **Process Efficiency & Transparency**,
- cut **Time-to-Market**,
- reduce **Legal & Credit Risk**

Framesoft's headquarter is located in Zug, Switzerland and Framesoft runs subsidiaries with offices in

- Europe
  - Switzerland (Zug)
  - Germany (Frankfurt and Munich)
  - United Kingdom (London)
- North America (Vancouver) and
- Asia (Fiji)
